

PEAKfresh Floral Liner Instructions

Using PEAKfresh floral liners is simple however, there are a few important steps to follow.

- 1) Always pre-cool your post-harvest flowers to the temperature at which they will be stored or transported.
- 2) Line the carton with your PEAKfresh liner.
- 3) After flower pre-cooling is complete, place your flowers in the lined carton.
- 4) Simply fold the bag over and keep your 'cool-chain' closed.

Line the carton with your PEAKfresh bag and pack your pre-cooled flowers.

Simply fold the bag over and keep your 'cool-chain' closed.

Flowers can be removed when required and the bag refolded. No need for any clips or seals!
