

How to calculate the box liner size you need:

Example box size: 18" x 10" x 7" (Length x Width x Height)

- 1) Add 1" to the Length
 $18" + 1" = 19"$
- 2) Add 1" to the Width
 $10" + 1" = 11"$
- 3) Add new Width to the Height and then add 2"
 $11" + 7" = 18" + 2" = 20"$

Liner Bag size needed: 19" x 11" x 20"
